SKformula PDRN Skin Booster

What is PDRN?

PDRN (Polydeoxyribonucleotide), a DNA unit derived from salmon sperm is almost similar to human DNA, effective in treatments for tissue damage, cell proliferation, extra-cellular matrix formation and restoration of blood vessel. It also can solve and be addressed to essentially solving skin problems.

With the ideal effect of stimulating the independent production of collagen lost with age, while ensuring the removal of free radicals from the body, it is now the cutting edge solution that deeply moisturizes the skin, enhances elasticity, and reduces the severity of wrinkles.

Meet SKformula PDRN Skin Booster

SKformula PDRN Sodium Hyaluronate-Polydeoxyribonucleotide Complex Solution for Injection is a colorless or white translucent viscous solution.

This product consists of prefilled syringe and a complex solution encapsulated in the prefilled syringe. The complex solution mainly consists of

- non-cross-linked sodium hyaluronate
- trace amounts of cross-linked sodium hyaluronate
- polydeoxyribonucleotide (PDRN)

The product is sterilized by moist heat and is for single use.

Application

SKformula PDRN Skin Booster is used for injection into facial dermis. It utilizes PDRN to stimulate new skin cell growth and collagen production and hyaluronic acid to plump and moist skin. After it is injected into the skin, it leads to a fast renewal of the skin, providing multiple effects to meet all facial rejuvenation needs, like

- Improve skin elasticity and structure
- Rejuvenate skin and improve skin tone
- Provide long lasting moisture and hydration
- Reduce appearance of fine lines

Improve elasticity

Rejuvenate skin

Moisturize and hydrate

Reduce fine lines

Specification: 2.5mLx1pc/box

Advantages of Skformula PDRN Skin Booster

SAFE

SKformula PDRN is extracted through a controlled GMP purification process, highly resembles human DNA. It is safe and compatible with human skin.

EFFECTIVE

Containing non cross-linked sodium hyaluronate, cross-linked sodium hyaluronate and PDRN, SKformula PDRN effectively restores a radiant, youthful appearance, bringing an immediately visible treatment effect. It not only moisturizes the skin, but also offers a lifting effect.

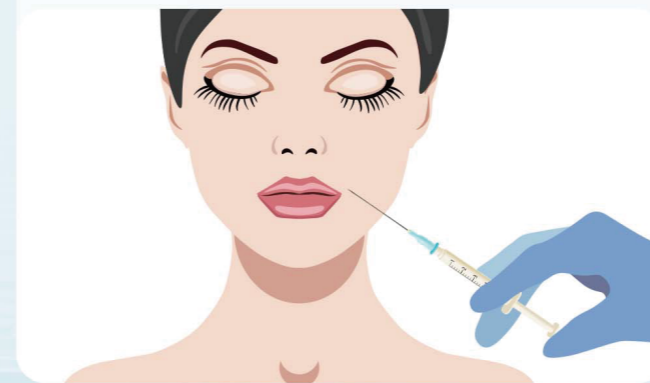

COMFORTABLE

SKformula PDRN uses micro-cross-linked sodium hyaluronate uniform dispersion technology, providing isotonic osmotic pressure with human body to increase comfort.

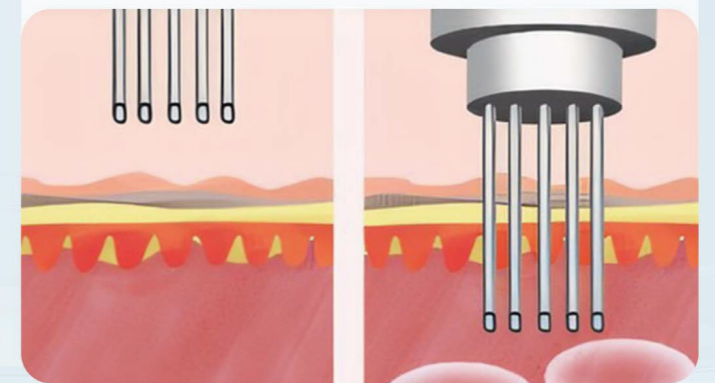

Treatment Protocol

Injection layer: dermis

Injection device:

30G x1/2" disposable injection needle or multi-needle depth controllable electronic injector

Dosage:

2.5mL-5mL/injection is recommended

4 weeks intervals

Total 3 procedures

Additional treatment may be given every 4 weeks if the physician deems it necessary based on patient's skin condition.
